

## **VENTURA HARBOR MARINA COMMERCIAL DOCK IMPROVEMENT PROJECT CONSTRUCTION PROJECT UPDATE**

### **Week of 05/12/19:**

Wednesday, 05/15/19 – Hot Tap. Bellingham Marine will “hot tap” into the main fire lines (provides high pressure water for City’s fire hydrants) in two locations along the Promenade. These taps will provide high pressure water to the fire boxes located on the docks. Once the tap is complete and City Building Inspectors sign off, the two locations along the Promenade will be back filled.

### **Week of 05/19/19:**

Final pressure testing. Upon final inspections, new cement pavement will be poured. Promenade fully re-opened to public. This will complete the landside work for this project. Going forward, all activity will be on the waterside.
