

# VENTURA HARBOR MARINA COMMERCIAL DOCK IMPROVEMENT PROJECT CONSTRUCTION PROJECT UPDATE

Week of June 23, 2019:

Going...

Going...

**GONE!**

## D-Dock – Deconstructed in under a week.

- 24 New docks arrived on Thursday from Dixon, CA. This will be the main walkway on the new D-Dock. They were immediately offloaded into the harbor.
- New 50' piles started arriving on Monday, June 24<sup>th</sup>.
- Pile driving for Phase One should commence week of June 23<sup>rd</sup>.

Major accomplishment as of Friday, June 21<sup>st</sup>. Entact, contractor hired by Chevron, successfully tapped and cut out a section of the 20" abandoned oil pipeline to allow the hot taps for new G-H Docks fire lines and potable water connections. The blue pipes are the water lines to be tapped. The oil pipeline was taken out of service in 1993. Entact has capped and welded shut both ends where the section was removed. This will complete the landside activity of this project.
